

# ABOUT FLEET TITANS

At Fleet Titans, we are committed to providing products from top manufacturers in the construction industry, exceptional service, and reliable parts to meet the demands of the industry.

Our founders, Chess Hedrick and Wyatt Wiggins, bring decades of experience to the table, having previously built Iron Source into a trusted name in the construction equipment industry before it was acquired by the third-largest equipment rental company in the world.

Their expertise and industry knowledge are now fully focused on Fleet Titans, where the mission is simple: to offer the industry's best construction equipment, service, and support.
